

Electricity Facts Label (EFL)

Gexa Energy, LP • PUCT Cert. #10027

Free 3 Day Weekends 12

Oncor Electric

Effective Date:04/30/2021

Average Monthly Use	500 kWh	1000 kWh	2000 kWh
Average Price per kWh	14.4 ¢	13.1 ¢	12.4 ¢

The price you pay each month includes the Energy Charge, Base Charge and TDU Delivery Charges in effect for your monthly billing cycle. Energy Charges on this plan are cumulative. This means your total energy charge will be the sum of the energy charges for each price tier in which you have usage. Average Price per kWh above is a sample based on an average annual usage profile for this TDU with 43% of electricity usage occurring during Weekends hours, as defined below.

Energy Charge	17.1000 ¢ per kWh - Weekdays
Energy Charge	0.0000 ¢ per kWh - Weekends
Base Charge	\$9.95 per billing cycle
TDU Delivery Charges	\$3.42 per billing cycle
TDU Delivery Charges	3.4928 ¢ per kWh - Weekdays
TDU Delivery Charges	0.0000 ¢ per kWh - Weekends

Weekdays is defined as 12:01 AM Monday to 11:59 PM Thursday, including holidays.

Weekends is defined as 12:00 AM Friday to 12:00 AM Monday, including holidays.

Electricity Price

This is an indexed product - your average price per kWh each month is determined by using the below predetermined formula.

$$\text{Average Price per kWh} = \frac{[(\text{Applicable Base Charge} + \text{TDU Delivery Charge per billing cycle}) + (\text{Monthly Billed Usage kWhs}) \times (\text{Energy Charge} + \text{TDU Delivery Charges per kWh})] - [(\text{Energy Charge} + \text{TDU Delivery Charges per kWh}) \times \text{Weekends kWh usage}]}{\text{Monthly Billed Usage kWhs}}$$

This price disclosure is an example based on average prices - your price for electricity service will vary according to your actual usage.

For updated TDU Delivery Charges please go to <https://mygexa2.gexaenergy.com/tdu-charges> TDU Delivery Charges will be passed through to customers without markup.

The total kilowatt-hour usage shown on your monthly invoice (Billed Usage) is provided by the Transmission and Distribution Utility (TDU). Usage for each time-of-day billing period shown above is determined from interval data from your advanced meter (Interval Data) and is also provided by the TDU. If the totaled Billed Usage and totaled Interval Data do not match, the Interval Data will be proportionately adjusted so the sum of all intervals equal the Billed Usage provided by the TDU. To find the current price for this product, use the above formula, visit <https://www.gexaenergy.com/average-price-formula> or call 1-866-961-9399.

Some locations may be subject to a TDU Underground Facilities and Cost Recovery charge authorized by their city that is not included in the total average prices shown. For more details, see your TDU service tariff for a listing of cities and authorized charges.

Other Key Terms and Questions	See Terms of Service for a full listing of fees, deposit policy, and other terms.
--------------------------------------	---
